SALLIE MAE
Investor Presentation
April 2015
Cautionary Note Regarding Forward-Looking Statements

The following information is current as of April 1, 2015 (unless otherwise noted) and should be read in connection with SLM Corporation’s Annual Report on Form 10-K for the year ended December 31, 2014 (filed with the Securities Exchange Commission (“SEC”) on February 26, 2015) and subsequent reports filed with the SEC.

This Presentation contains “forward-looking” statements and information based on management’s current expectations as of the date of this presentation. Statements that are not historical facts, including statements about the Company’s beliefs or expectations and statements that assume or are dependent upon future events, are forward-looking statements. Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in Item 1A “Risk Factors” and elsewhere in the Company’s Annual Report on Form 10-K for the year ended Dec. 31, 2014 (filed with the SEC on Feb. 26, 2015); increases in financing costs; limits on liquidity; increases in costs associated with compliance with laws and regulations; changes in accounting standards and the impact of related changes in significant accounting estimates; any adverse outcomes in any significant litigation to which the Company is a party; credit risk associated with the Company’s exposure to third parties, including counterparties to the Company’s derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from new laws and the implementation of existing laws). The Company could also be affected by, among other things: changes in its funding costs and availability; reductions to its credit ratings; failures or breaches of its operating systems or infrastructure, including those of third-party vendors; damage to its reputation; failures or breaches to successfully implement cost-cutting and restructuring initiatives and adverse effects of such initiatives on the Company’s business; risks associated with restructuring initiatives; changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; changes in law and regulations with respect to the student lending standards and the impact of related changes in significant accounting estimates; any adverse outcomes in any significant litigation to which the Company is a party; credit risk associated with the Company’s exposure to third parties, including counterparties to the Company’s derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from new laws and the implementation of existing laws). The Company could also be affected by, among other things: changes in its funding costs and availability; reductions to its credit ratings; failures or breaches of its operating systems or infrastructure, including those of third-party vendors; damage to its reputation; failures or breaches to successfully implement cost-cutting and restructuring initiatives and adverse effects of such initiatives on the Company’s business; risks associated with restructuring initiatives; changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; changes in law and regulations with respect to the student lending business and financial institutions generally; changes in banking rules and regulations, including increased capital requirements; increased competition from banks and other consumer lenders; the creditworthiness of customers; changes in the general interest rate environment, including the rate relationships among relevant money-market instruments and those of earning assets versus funding arrangements; rates of prepayment on the loans made by the Company and its subsidiaries; changes in general economic conditions and the Company’s ability to successfully effectuate any acquisitions; and other strategic initiatives. The preparation of the Company’s consolidated financial statements also requires management to make certain estimates and assumptions including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect. All forward-looking statements contained in this Presentation are qualified by these cautionary statements and are made only as of the date of this Presentation. The Company does not undertake any obligation to update or revise these forward-looking statements to conform such statements to actual results or changes in its expectations.

The Company reports financial results on a GAAP basis and also provides certain core earnings performance measures. The difference between the Company’s “Core Earnings” and GAAP results for the periods presented were the unrealized, mark-to-market gains/losses on derivative contracts. These are recognized in GAAP but not in “Core Earnings” results. The Company provides “Core Earnings” measures because this is what management uses when making management decisions regarding the Company’s performance and the allocation of corporate resources. The Company’s “Core Earnings” are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies. For additional information, see “Management's Discussion and Analysis of Financial Condition and Results of Operations - Key Financial Measures-Core Earnings” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 for a further discussion and for a complete reconciliation between GAAP net income and core earnings.

Disclaimer

A significant portion of the historical data relating to historical Smart Option Student Loan performance used to prepare these materials was provided to Sallie Mae Bank by Navient Corporation (“Navient”) pursuant to a Data Sharing Agreement executed in connection with the Spin-Off. Under the data sharing agreement, Navient makes no representations or warranties to Sallie Mae Bank concerning the accuracy and completeness of information that they provided. Sallie Mae Bank has not independently verified, and is not able to verify, the accuracy or completeness of the data provided under the agreement or of Navient’s representations and warranties. Although we have no reason to believe that the data used to prepare the tabular and graphic presentations in this documents, as a whole, is materially inaccurate or incomplete, and have assumed that the data provided by Navient under the Data Sharing Agreement as a whole to be materially accurate and complete, neither the Company nor any person on its behalf has independently verified the accuracy and completeness of such data.
Historical Smart Option Loan Performance
On April 30, 2014 (the “Spin-Off Date”), the former SLM Corporation legally separated (the “Spin-Off”) into two distinct publicly traded entities: an education loan management, servicing and asset recovery business called Navient Corporation (“Navient”), and a consumer banking business called SLM Corporation. SLM Corporation’s primary operating subsidiary is Sallie Mae Bank. We sometimes refer to SLM Corporation, together with its subsidiaries and its affiliates, during the period prior to the Spin-Off as “legacy SLM.”

Legacy SLM’s Private Education Loan and ABS Programs Prior to the Spin-Off

In 1989, legacy SLM began making private education loans to graduate students. In 1996, legacy SLM expanded its private education loan offerings to undergraduate students. Between 2002 and 2007, legacy SLM issued $18.6 billion of private education loan-backed ABS in 12 separate transactions.

In 2009, in response to the financial downturn, legacy SLM revised its private education loan underwriting criteria, tightened its forbearance and collections policies, ended direct-to-consumer disbursements, and ceased lending to students attending certain for-profit schools. Legacy SLM issued no private education loan ABS in 2008.

In 2009, legacy SLM introduced its Smart Option Student Loan product and began underwriting private education loans with a proprietary custom credit score. The custom credit score included income-based factors, which led to a significant increase in the percentage of loans requiring a co-signer, typically a parent. The initial loans originated under the Smart Option Student Loan program (the “Interest Only SOSLs”) were variable rate loans and required interest payments by borrowers while in school, which reduced the amount payable over the loans’ lives and helped establish repayment habits among borrowers. In 2010, legacy SLM introduced a second option for its Smart Option Student Loan customers, which required a $25 fixed monthly payment while in school (the “Deferred SOSLs”). In 2011, legacy SLM introduced another option for its Smart Option Student Loan customers, which allowed borrowers to defer interest and principal payments until after a student graduates or separates from school (the “Deferred SOSLs”). In 2012, Sallie Mae introduced a fixed rate loan option for its Interest Only, Fixed Pay and Deferred SOSLs. Borrowers must select which of these options they prefer at the time of loan origination and are not permitted to change those options once selected.

In 2011, legacy SLM included private education loans originated under the Smart Option Student Loan program in its ABS pools for the first time. Between 2011 and 2014, the mix of Smart Option Student Loans included in legacy SLM’s private education loan ABS steadily increased as a percentage of the collateral pools, from 10% initially to 64% in later transactions.

Sallie Mae Bank’s Private Education Loan and ABS Programs Post-Spin Off

Originations. Following the Spin-Off, Sallie Mae Bank has continued to originate loans under the Smart Option Student Loan program. As of December 31, 2014, it owned $9.5 billion of private education loans, the vast majority of which were Smart Option Student Loans originated since 2009, and two-thirds of which were originated in 2013 and 2014. Navient ceased originating private education loans following the Spin-Off.

Servicing. Immediately prior to the Spin-Off, Sallie Mae Bank assumed responsibility for collections of delinquent loans on the vast majority of its Smart Option Student Loan portfolio. Following the Spin-Off Date, Navient continued to service all private education loans owned by the two companies on its servicing platform until October 2014, when servicing for the vast majority of Sallie Mae Bank’s private education loan portfolio was transitioned to Sallie Mae Bank. Sallie Mae Bank now services and is responsible for collecting the vast majority of the Smart Option Student Loans it owns.

Securitization and Sales. In August 2014, Sallie Mae Bank sponsored its first private education loan ABS, SMB Private Education Loan Trust 2014-A (the “SMB 2014-A transaction”). Because this transaction occurred prior to the transfer of loan servicing from Navient to Sallie Mae Bank, Sallie Mae Bank acted as master servicer for the transaction and Navient as subservicer, and the loan pool is serviced pursuant to Navient servicing policies. Also in August 2014, Sallie Mae Bank sold Navient approximately $800 million of performing Smart Option Student Loans.

Additional Information. Prior to the Spin-Off, all Smart Option Student Loans were originated and initially held by Sallie Mae Bank, as a subsidiary of legacy SLM. Sallie Mae Bank typically then sold certain of the performing Smart Option Student Loans to an affiliate of legacy SLM for securitization. Additionally, on a monthly basis Sallie Mae Bank sold all loans that were over 90 days past due in forbearance, restructured or involved in a bankruptcy to an affiliate of legacy SLM. As a result of this second practice, prior to the occurrence of the Spin-Off, historical performance data for Sallie Mae Bank’s Smart Option Student Loan portfolio reflected minimal stage delinquencies, forbearance or charge-offs.

Legacy SLM collected Smart Option Student Loans pursuant to policies that required loans be charged off after 212 days of delinquency. In April 2014, Sallie Mae Bank began collecting the vast majority of its Smart Option Student Loans pursuant to policies that required loans be charged off after 120 days of delinquency, in accordance with bank regulatory guidance. As a result of the various policies described above, it was not until recently that (a) a meaningful amount of Smart Option Student Loan charge-offs occurred in Sallie Mae Bank’s portfolio, and (b) performance data on Sallie Mae Bank’s owned Smart Option Student Loan portfolio became useful as a basis for evaluating historical trends for Smart Option Student Loans. For the reasons described above, much of Sallie Mae Bank’s historical performance data does not reflect current collections and charge off practices and may not be indicative of the future performance of the Bank’s Smart Option Student Loans. We do not believe the credit performance indicators for Sallie Mae Bank-owned and -serviced Smart Option Student Loans yet provide meaningful period-over-period comparisons.
Important Information Regarding Historical Loan Performance Data (cont.)

Types of Smart Option Loan Portfolio Data

The portfolio data we used in this report comes from two separate sources of information:

1. Combined Smart Option Student Loan Portfolio Data for Legacy SLM, Navient and Sallie Mae Bank. Information in this category is presented on a combined basis for loans originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank when it was part of legacy SLM or by Sallie Mae Bank post Spin-Off, and regardless of whether the loan is currently held by an ABS trust, or held or serviced by Navient or Sallie Mae Bank. Data in this category is used in the tables below under the following headings:
   - "Cumulative Gross Defaults by Origination Vintage and Years in Interim Repayment;"
   - "Cumulative Gross Defaults by Loan Type;"
   - "Cumulative Recovery Rate for Charge-Off Vintages Since 2011;"

   This combined Smart Option Student Loan portfolio data provides insight into gross defaults of all Smart Option Student Loans since 2011, regardless of ownership or servicing standard. We believe historical loan performance data since 2011 is more representative of the expected performance of Smart Option Student Loans to be included in new Sallie Mae Bank trusts than data available for earlier periods. Data available for earlier periods includes a limited number of Smart Option Student Loan product types, a limited amount of loans in principal and interest repayment status, and limited periods of loan performance history. Combined Smart Option Student Loan portfolio data is presented by vintage principal and interest repayment years.

2. Legacy SLM Consolidated Smart Option Student Loan Portfolio Data prior to the Spin-Off Date, and Sallie Mae Bank-Only Smart Option Student Loan Data from and after the Spin-Off Date. Information in this category is presented on a combined basis for loans originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank prior to the Spin-Off or by Sallie Mae Bank post Spin-Off. Specifically, legacy SLM charged off loans after 212 days of delinquency, while Sallie Mae Bank charges off loans after 120 days of delinquency. As a result, future performance of loans serviced by Sallie Mae Bank may differ from the historical performance of loans reflected in this combined Smart Option Student Loan portfolio data.

Loans contained in the combined Smart Option Student Loan portfolio category were serviced by legacy SLM prior to the Spin-Off, and by either Navient or Sallie Mae Bank after the Spin-Off. As noted above, loans serviced by legacy SLM and Navient were serviced pursuant to different policies than those loans serviced by Sallie Mae Bank after the Spin-Off. Specifically, legacy SLM charged off loans after 212 days of delinquency, and Navient has continued this policy. Sallie Mae Bank currently charges off loans after 120 days of delinquency. All loans included in the combined Smart Option Student Loan portfolio were serviced by legacy SLM pursuant to a 212-day charge off policy prior to the Spin-Off. Following the Spin-Off, a portion of the loans included in the combined Smart Option Student Loan portfolio have been serviced by Navient pursuant to a 212-day charge off policy, and a portion have been serviced by Sallie Mae Bank pursuant to a 120-day charge off policy. As a result, future performance of loans serviced by Sallie Mae Bank may differ from the historical performance of loans reflected in this combined Smart Option Student Loan portfolio data.

(2) Legacy SLM Consolidated Smart Option Student Loan Portfolio Data prior to the Spin-Off Date, and Sallie Mae Bank-Only Smart Option Student Loan Data from and after the Spin-Off Date. Information in this category is presented on a combined basis for loans originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank prior to the Spin-Off or by Sallie Mae Bank after the Spin-Off. Loans in this category are used in the tables below under the following headings:
   - "1-30 Day Delinquencies as a Percentage of Loans in P&I Repayment;"
   - "31-60 Day Delinquencies as a Percentage of Loans in P&I Repayment;"
   - "61-90 Day Delinquencies as a Percentage of Loans in P&I Repayment;"
   - "91-plus Day Delinquencies as a Percentage of Loans in P&I Repayment;"
   - "Annualized Gross Defaults as a Percentage of Loans in P&I Repayment;" and
   - "Voluntary and Total Constant Prepayment Rates by Origination Vintage and Product;"

   This consolidated Smart Option Student Loan portfolio data provides insight into historical delinquencies, forbearance, defaults and prepayment rates specifically of the loans that originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank prior to the Spin-Off or by Sallie Mae Bank post Spin-Off. Loans in this category are used in the tables below under the following headings:
   - "Cumulative Gross Defaults by Origination Vintage and Years in Interim Repayment;"
   - "Cumulative Gross Defaults by Loan Type;"
   - "Cumulative Recovery Rate for Charge-Off Vintages Since 2011;"

   This consolidated Smart Option Student Loan portfolio data provides insight into historical delinquencies, forbearance, defaults and prepayment rates specifically of the loans that originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank prior to the Spin-Off or by Sallie Mae Bank post Spin-Off. Loans in this category are used in the tables below under the following headings:

Any data or other information presented in the following report is for comparative purposes only, and, is not to be deemed a part of any offering of securities.
Historical Smart Option Loan Performance
Smart Option loans have very low incidence of delinquency, forbearance or default until after a borrower’s graduation or separation, when full principal and interest payments become due.

Smart Option Student Loans - Serviced Portfolio
Cumulative Gross Defaults by Origination Vintage and Years in Interim Repayment (1)
Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru Present (2)

(1) Loans in ‘Interim Repayment’ refers to loans made under the Smart Option Interest Only and Fixed Payment loan programs with payments due while borrowers are in school, grace or deferment. ‘Interim Repayment’ precedes the full principal and interest repayment period.

(2) Certain data used in the charts above was provided by Navient under a data sharing agreement. Sallie Mae Bank has not independently verified, and is not able to verify, the accuracy or completeness of the data provided under the agreement.

Note: Legacy SLM and Navient portfolio serviced pursuant to a 212 day charge-off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge-off policy. Historical trends may not be indicative of future performance.
Smart Option Serviced Portfolio: 31-60 Day Delinquencies

Smart Option Student Loans - Serviced Portfolio
31-60 Days Delinquencies as a % of Loans in P&I Repayment(1)
Data for Legacy SLM thru April 30, 2014 and Sallie Mae Bank since May 1, 2014

(1) Loans in 'P&I Repayment' includes only those loans for which scheduled principal and interest payments are due.

Note: Legacy SLM portfolio serviced pursuant to a 212 day charge off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge off policy. Historical trends may not be indicative of future performance.
Smart Option Serviced Portfolio: 61-90 Day Delinquencies

Smart Option Student Loans - Serviced Portfolio
61-90 Days Delinquencies as a % of Loans in P&I Repayment

Data for Legacy SLM thru April 30, 2014 and Sallie Mae Bank since May 1, 2014

(1) Loans in ‘P&I Repayment’ includes only those loans for which scheduled principal and interest payments are due.

Note: Legacy SLM portfolio serviced pursuant to a 212 day charge off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge off policy. Historical trends may not be indicative of future performance.
Smart Option Serviced Portfolio: 91+ Day Delinquencies

Smart Option Student Loans - Serviced Portfolio
91+ Days Delinquencies as a % of Loans in P&I Repayment
Data for Legacy SLM thru April 30, 2014 and Sallie Mae Bank since May 1, 2014

(1) Loans in 'P&I Repayment' includes only those loans for which scheduled principal and interest payments are due.

Note: Legacy SLM portfolio serviced pursuant to a 212 day charge off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge off policy. Historical trends may not be indicative of future performance.
Forbearance as a % of Loans in P&I Repayment and Forbearance (1)

Note: Legacy SLM portfolio serviced pursuant to a 212 day charge off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge off policy. Historical trends may not be indicative of future performance.

(1) Loans in ‘P&I Repayment’ includes only those loans for which scheduled principal and interest payments are due.
Smart Option Serviced Portfolio: Annualized Gross Defaults

Smart Option Student Loans - Serviced Portfolio
Annualized Gross Defaults as a % of Loans in P&I Repayment (1)
Data for Legacy SLM thru April 30, 2014 and Sallie Mae Bank since May 1, 2014

(1) Loans in ‘P&I Repayment’ include only those loans for which scheduled principal and interest payments are due.

Note: Legacy SLM portfolio serviced pursuant to a 212 day charge off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge off policy. Historical trends may not be indicative of future performance.
Smart Option Vintage Data: Cumulative Gross Default by Loan Type

Smart Option Student Loans - Serviced Portfolio: All Products
Cumulative Defaults by P&I Repayment Vintage and Years in P&I Repayment (1)
Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru Present (2)

Smart Option Student Loans - Serviced Portfolio: Interest Only
Cumulative Defaults by P&I Repayment Vintage and Years in P&I Repayment (1)
Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru Present (2)

Smart Option Student Loans - Serviced Portfolio: Fixed Pay
Cumulative Defaults by P&I Repayment Vintage and Years in P&I Repayment (1)
Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru Present (2)

Smart Option Student Loans - Serviced Portfolio: Deferred
Cumulative Defaults by P&I Repayment Vintage and Years in P&I Repayment (1)
Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru Present (2)

(1) Loans in ‘P&I Repayment’ includes only those loans for which scheduled principal and interest payments are due. Data as of December 31, 2014.
(2) Certain data used in the charts above was provided by Navient under a data sharing agreement. Sallie Mae Bank has not independently verified, and is not able to verify, the accuracy or completeness of the data provided under the agreement.

Note: Legacy SLM and Navient portfolio serviced pursuant to a 212 day charge-off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge-off policy. Historical trends may not be indicative of future performance.
Following the first year after disbursement, total prepayments have generally ranged around 4%.

Note: Legacy SLM and Navient portfolio serviced pursuant to a 212 day charge-off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge-off policy. Historical trends may not be indicative of future performance.
Following the first year after disbursement, voluntary prepayments have generally ranged from between 2-3% for the Smart Option Deferred loan product, to 5-6% for the Interest Only product.

Note: Legacy SLM and Navient portfolio serviced pursuant to a 212 day charge-off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge-off policy. Historical trends may not be indicative of future performance.
The Sallie Mae Brand

- #1 saving, planning and paying for education company with 40-years of leadership in the education lending market
- Industry leading 53% market share in private education lending
- Over 2,400 actively managed university relationships across the U.S.
- Complementary consumer product offerings
- Over one million long-term engaged customers across the Sallie Mae brands
2014 Sallie Mae Highlights

► Completed legal separation from Navient on April 30, 2014
► Generated “Core Earnings” of $195 million for the year ended December 31, 2014
► Originated $4.1 billion of high quality private education loans in 2014, a 7% increase over 2013
► Grew private education loan portfolio by 27%
► Completed loan sales of $1.6 billion at favorable rates
► Closed a $750 million secured funding facility in December 2014
► Completed the roll out of independent servicing and customer support capabilities

Sallie Mae’s Smart Option Loan Product Overview

- The Smart Option loan product was introduced by Sallie Mae in 2009
- The Smart Option loan program consists of:
  - Smart Option Interest Only loans - require full interest payments during in-school, grace, and deferment periods
  - Smart Option Fixed Pay loans - require $25 fixed payments during in-school, grace, and deferment periods
  - Smart Option Deferred loans – do not require payments during in-school and grace periods
- Variable rate loans indexed to LIBOR, or fixed rate
- Smart Option payment option may not be changed after selected at origination
- Underwritten using proprietary credit score model
- Marketed primarily through the school channel and also directly to consumers, with all loans certified by and disbursed directly to schools

(1) Private education loans are typically non-dischargeable in bankruptcy, unless a borrower can prove that repayment of the loan would impose an "undue hardship".
Defaults on private education loans are generally front-loaded.

Approximately two-thirds of projected gross charge-offs are expected to occur within three years after loans enter full principal and interest repayment.

**Sallie Mae Bank Smart Option Student Loans**

**Projected Gross Default Timing Curve for Loans in P&I Repayment** *(1)(2)*

(1) Loans in ‘P&I Repayment’ includes only those loans for which scheduled principal and interest payments are due.

(2) Projected for Sallie Mae Bank serviced Smart Option loan portfolio as of December 31, 2014, based on a 120 day charge-off policy. Subject to change.
**Conservative Funding Approach**

- **Low cost deposit base with no branch overhead**
  - 90% of retail deposits are savings accounts
  - Brokered deposits used as alternative funding source

- **Term funding / securitizations will augment deposit funding for future growth**
  - Experienced capital markets team
  - Capacity to securitize $2 - $3bn of private education loans

- **Multi-year revolving conduit facility**
  - Provides seasonal loan funding and backup liquidity
  - $750mm conduit with 2-year term provided by consortium of banks

- **Whole loan sales used to manage balance sheet growth**
  - Targeting $1 – $2bn of loan sales annually

- **Substantial liquidity portfolio**
  - $2.4bn of on-balance sheet cash provides seasonal loan funding and liquidity

</tr>
</tbody>
</table>

Sallie Mae Bank Forbearance Policy -

- First choice is always to collect a payment from the borrower or co-signer
- If payment is not possible, forbearance temporarily provides borrowers limited time to improve their ability to repay during temporary economic hardship
- The vast majority of loans do not use forbearance; those that do, remain in forbearance for less than 12 months

---

(1) Sallie Mae Bank intends to add third party collection agency management, account placement and other functionality necessary to managed charge-off loan collections internally. In the future, Sallie Mae expects to have the option of selling or internally managing collections of charged off loans, and to utilize one or both of those strategies at any time based on market conditions.
Sallie Mae Bank Collections

Each customer is approached individually, and the account manager is educated and empowered to identify optimal resolution

► Co-borrowers are contacted and collected with similar efforts as the primary borrower

Sallie Mae Bank employs a front-loaded, stage based collections approach:

► Early Stage Loan Collections (1 – 29 days delinquent as of the first of the month)
  – Calling activity begins as early as 1 cycle day behind (5 days past their due date in most instances)
  – Dialer based calling and automated messaging are leveraged for early delinquency
  – E-mail and letter campaigns compliment calling efforts

► Mid-Stage Loan Collections (30 – 59 days delinquent as of the first of the month)
  – Continue early stage activities
  – Account is assigned to a collector’s queue based on the delinquency and the type of loan. Collection campaign includes telephone attempts and manual & batch skip tracing

► Late Stage Loan Collections (60+ days delinquent as of the first of the month)
  – Continue both early and mid-stage activities
  – Tenured route management collectors and customized letter campaigns

Cash collection is the primary focus, but a variety of tools are also available to collectors to aid in resolving delinquency:

– Auto pay – Monthly payment made automatically, prior delinquency cleared with forbearance
– Three Pay – After three scheduled monthly payments are made, prior delinquency cleared with forbearance
– Term Extension – Extend term for monthly payment relief, enrolled after three qualifying payments
– Rate Reduction – Reduce rate for monthly payment relief, enrolled after three qualifying payments
– Rate Reduction with Term Extension – Reduced rate and extended term
– Additional programs are available when all other methods are not adequate

Bankruptcy Collections Policy – Collection activity stops if both parties on the loan file bankruptcy (borrower and cosigner); otherwise, collections can continue on the non-filing party
Recovery Operations

- In the near term, Sallie Mae Bank plans to sell charged-off loans to third parties following charge-off at 120+ days past due
  - Recoveries realized immediately
  - Practical and predictable economics
  - Manageable compliance and vendor oversight requirements
- Initial charged off loan sale occurred in December 2014
- Forward flow agreement with a "preferred" debt buyer in place through September 2015
  - High teens sales price for newly charged-off loans

Sallie Mae Bank intends to add third party collection agency management, account placement and other functionality necessary to support charged-off loan collections internally

- In the future, Sallie Mae Bank expects to have the option of selling or internally managing collections of charged off loans, and to utilize one or both of those strategies at any time based on market conditions
Recoveries of charged-off Smart Option loans historically have occurred over a longer period and have been higher than for many other types of unsecured consumer credit.

**Smart Option Loan Cumulative Recovery Rate for Charge-Off Vintages Since 2011**

Data for Legacy SLM, Navient and Sallie Mae Bank Combined thru November 31, 2014

---

(1) Certain data used in the charts above was provided by Navient under a data sharing agreement. Sallie Mae Bank has not independently verified, and is not able to verify, the accuracy or completeness of the data provided under the agreement.

Note: Recovery data is for collections of charged off Smart Option loans managed by legacy SLM and Navient. Sallie Mae Bank is currently selling charged off loans to third parties. Sallie Mae Bank intends to add third party collection agency management, account placement and other functionality necessary to managed charge-off loan collections internally. In the future, Sallie Mae expects to have the option of selling or internally managing collections of charged off loans, and to utilize one or both of those strategies at any time based on market conditions. Legacy SLM and Navient portfolio serviced pursuant to a 212 day charge-off policy. Sallie Mae Bank portfolio serviced pursuant to a 120 day charge-off policy. Historical trends may not be indicative of future performance.
Private Education Loan Market Background
Private Education Loan Characteristics

- Unsecured consumer loans made to qualified borrowers and co-signers to fund the cost of undergraduate, graduate and other forms of post-secondary education.

- Unlike FFELP Loans, private education loans are not guaranteed against losses by the Department of Education, or any other entity.

- Similar to FFELP loans, private education loans are generally non-dischargeable in bankruptcy.

- Private education loans are made to students attending public, private, not-for-profit, and for profit institutions.

- Students and parents are encouraged to exhaust other sources of aid prior to applying for a private education loan.

</tr>
</tbody>
</table>

<sup>(1)</sup> Pertains to the Sallie Mae Smart Option loan product.

<sup>(2)</sup> Private education loans are typically non-dischargeable in bankruptcy, unless a borrower can prove that repayment of the loan would impose an “undue hardship”.

---

**Notes:**

- **Borrower:** Student (FFELP) vs. Student or Parent (Sallie Mae).
- **Co-signer:** None (FFELP) vs. Typically a parent (Sallie Mae).
- **Lender:** Eligible banks and private lenders under FFELP (FFELP) vs. Banks and other private sector lenders (Sallie Mae).
- **Guarantee:** 97-100% of principal and interest by the U.S. Department of Education (FFELP) vs. Not guaranteed by the U.S. Government or any other entity (Sallie Mae).
- **Interest Subsidy/Special Allowance Payments:** Paid by the U.S. Department of Education (FFELP) vs. Not Applicable (Sallie Mae).
- **Underwriting:** Borrower must have no outstanding student loan defaults or bankruptcy (FFELP) vs. Consumer credit underwriting, with minimum FICO, custom credit score model, and judgmental underwriting (Sallie Mae).
- **Pricing:** Fixed or floating rate depending on origination year and loan program (FFELP) vs. Risk-based, variable rate indexed to LIBOR or fixed rate (Sallie Mae).
- **Maximum Amount per Year:** $5,500-$7,500 for dependent student, based on year in school (FFELP) vs. Up to the full cost of education, less grants and federal loans (Sallie Mae).
- **Repayment Term:** 10 years, with repayment deferred until after graduation (FFELP) vs. 5 to 15 years, may pay interest or a $25 fixed payment while in school, or may be deferred until after graduation (Sallie Mae).
- **Collections:** Based on prescribed U.S. Dept of Education regulations (FFELP) vs. Typical consumer loan collections activities, managed independent of FFELP (Sallie Mae).
- **Deferment:** Permitted for a variety of reasons, including economic hardship (FFELP) vs. Granted to students who return to school, and are involved in active military service (Sallie Mae).
- **Forbearance:** Permitted for a variety of reasons, including economic hardship (FFELP) vs. Typically granted for economic hardship, up to a maximum of 12 months (Sallie Mae).
- **Dischargeable in Bankruptcy:** No (FFELP) vs. No<sup>(2)</sup> (Sallie Mae).

(3) “Total post-secondary education spend” is estimated by Sallie Mae by determining the full-time equivalents for both graduates and undergraduates and multiplying by estimated total per person cost of attendance for each school type. In doing so, we utilize information from the US Department of Education, College Board, MeasureOne, National Student Clearinghouse and Company Analysis. Other sources for these data points also exist publicly and may vary from our computed estimates.

- 4% owe more than $100,000

Private Education Loan Lifecycle

IN SCHOOL AND GRACE

- Loan made to borrower/co-signer
- In School Status (Additional Borrowing)
- Grace Status After graduation (generally 6 months)

REPAYMENT

- Repayment Status
- On Time Payment
- Delinquent (30+ days)
- Default (120+ days delinquent)
- Post-Default Recovery

Forbearance Status (3 month increments; up to 12 months)

DEFERMENT

- Deferment Status (back to school) (up to 48 months)

Note: Interest capitalization occurs after Grace, Deferment, and Forbearance periods.
Cohort Default Triangles
The following cohort default triangles provide loan performance information for Legacy SLM, Navient and Sallie Mae Bank serviced Smart Option loans combined, thru the most recent period indicated (1)

Terms and calculations used in the cohort default triangles are defined below:

- **P&I Repayment Year** – The calendar year that loans entered P&I repayment
  - All Smart Option loans are considered to be in P&I repayment any time the borrower is required to make full principal and interest payments on the loan

- **Disbursed Principal Entering P&I Repayment** – The amount of principal entering P&I repayment in a given year, based on disbursed principal prior to any interest capitalization

- **Years in P&I Repayment** – Measured in years between P&I repayment start date and default date. Year zero represents defaults that occurred prior to the start of P&I repayment

- **Periodic Defaults** – Defaulted principal in each Year in P&I Repayment as a percentage of the disbursed principal entering repayment in each P&I Repayment Year
  - Defaulted principal includes any interest capitalization that occurred prior to default
  - Defaulted principal is not reduced by any amounts recovered after the loan defaulted
  - Because the numerator includes capitalized interest while the denominator does not, default rates are higher than if the numerator and denominator both included capitalized interest

- **Total** – The sum of Periodic Defaults across Years in P&I Repayment for each P&I Repayment Year

(1) Data excludes loans made to borrowers attending certain for profit schools not included in legacy SLM securitizations. Excluded loans represent less than one percent of the total loan balances.

Note: Historical trends suggested by the cohort default triangles may not be indicative of future performance. Legacy Sallie Mae and Navient serviced loans were serviced pursuant to a 212 day charge off policy. Sallie Mae Bank serviced loans were serviced pursuant to a 120 day charge off policy.
