Forward-Looking Statements and Disclaimer

Cautionary Note Regarding Forward-Looking Statements

The following information is current as of July 19, 2017 (unless otherwise noted) and should be read in connection with the press release of SLM Corporation (the "Company") announcing its financial results for the quarter ended June 30, 2017, the Form 10-Q for the quarter ended June 30, 2017 (filed with the Securities and Exchange Commission ("SEC") on July 19, 2017), and subsequent reports filed with the SEC.

This Presentation contains “forward-looking” statements and information based on management’s current expectations as of the date of this Presentation. Statements that are not historical facts, including statements about the Company's beliefs, opinions or expectations and statements that assume or are dependent upon future events, are forward-looking statements. Forward-looking statements are subject to risks, uncertainties, assumptions and other factors that may cause actual results to be materially different from those reflected in such forward-looking statements. These factors include, among others, the risks and uncertainties set forth in Item 1A "Risk Factors" and elsewhere in the Company's Annual Report on Form 10-K for the year ended Dec. 31, 2016 (filed with the SEC on Feb. 24, 2017) and subsequent filings with the SEC; increases in financing costs; limits on liquidity; increases in costs associated with compliance with laws and regulations; failure to comply with consumer protection, banking and other laws; changes in accounting standards and the impact of related changes in significant accounting estimates; any adverse outcomes in any significant litigation to which the Company or any subsidiary is a party; credit risk associated with the Company’s (or any subsidiary’s) exposure to third parties, including counterparties to the Company’s (or any subsidiary’s) derivative transactions; and changes in the terms of education loans and the educational credit marketplace (including changes resulting from new laws and the implementation of existing laws). The Company could also be affected by, among other things: changes in its funding costs and availability; reductions to its credit ratings; failures or breaches of its operating systems or infrastructure, including those of third-party vendors; damage to its reputation; risks associated with restructuring initiatives, including failures to successfully implement cost-cutting programs and the adverse effects of such initiatives on the Company’s business; changes in the demand for educational financing or in financing preferences of lenders, educational institutions, students and their families; changes in law and regulations with respect to the student lending business and financial institutions generally; changes in banking rules and regulations, including increased capital requirements; increased competition from banks and other consumer lenders; the creditworthiness of customers; changes in the general interest rate environment, including the rate relationships among relevant money-market instruments and those of earning assets versus funding arrangements; rates of prepayments on the loans made by the Company and its subsidiaries; changes in general economic conditions and the Company’s ability to successfully effectuate any acquisitions; and other strategic initiatives. The preparation of the Company’s consolidated financial statements also requires management to make certain estimates and assumptions, including estimates and assumptions about future events. These estimates or assumptions may prove to be incorrect. All forward-looking statements contained in this Presentation are qualified by these cautionary statements and are made only as of the date of this Presentation. The Company does not undertake any obligation to update or revise these forward-looking statements to conform such statements to actual results or changes in its expectations.

The Company reports financial results on a GAAP basis and also provides certain “Core Earnings” performance measures. The difference between the Company’s “Core Earnings” and GAAP results for the periods presented were the unrealized, mark-to-market gains/losses on derivative contracts. These are recognized in GAAP, but not in “Core Earnings” results. The Company provides “Core Earnings” measures because this is what management uses when making management decisions regarding the Company’s performance and the allocation of corporate resources. The Company’s “Core Earnings” are not defined terms within GAAP and may not be comparable to similarly titled measures reported by other companies.

For additional information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations – GAAP Consolidated Earnings Summary-'Core Earnings’” in the Company’s Quarterly Report on Form 10-Q for the quarter ended June 30, 2017 for a further discussion and the “‘Core Earnings’ to GAAP Reconciliation” table in this Presentation for a complete reconciliation between GAAP net income and “Core Earnings”.

Sallie Mae Overview

Sallie Mae Key Statistics for Q2 2017

- $0.16 “Core Earnings” Diluted Earnings Per Common Share
  1,2
- Portfolio of $15.5 billion of high quality Private Education Loans
- 77% of Private Education Loans disbursed in Q2 are cosigned, 78% in Q2 2016
- Average Q2 Private Education Loan originations FICO of 745
- 79% of Private Education Loans outstanding have origination FICO ≥ 700
- $1.3 billion in cash
- Net interest income= $270 million
- Net interest margin= 5.91%
- Private Education Loan yield= 8.33%

A diversified approach to funding which includes:

- $13.8 billion in deposits
  - $7.0 billion brokered deposits
  - $6.8 billion in retail and other deposits
- $750 million multi-year asset-backed commercial paper funding facility
- $2.7 billion of Private Education Loan term securitizations outstanding
- Raised $200 million in 5.125% Senior Unsecured notes on April 5, 2017 with proceeds that were used to redeem the 6.97 percent Cumulative Redeemable Preferred Stock, Series A on May 5, 2017

(1) The difference between “Core Earnings” and GAAP net income is driven by mark-to-market unrealized gains and losses on derivative contracts recognized in GAAP, but not in “Core Earnings” results. See page 26 for a reconciliation of GAAP and “Core Earnings”.

(2) Derivative Accounting: “Core Earnings” exclude periodic unrealized gains and losses caused by the mark-to-market valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, as well as the periodic unrealized gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP. Under GAAP, for our derivatives held to maturity, the cumulative net unrealized gain or loss over the life of the contract will equal $0.
Sallie Mae Summary

- Leading private education loan franchise
- Conservative credit and funding
- Expanding consumer finance product suite

- National sales and marketing
- Largest salesforce in the industry
- Specialized underwriting capability
- Capital markets expertise

(2) Source: Trends in College Pricing. © 2016 The College Board, www.collegeboard.org, Note: Academic years, average published tuition, fees, room and board charges at four-year institutions; enrollment-weighted

(3) Source: Total post-secondary education spend is estimated by Sallie Mae determining the full-time equivalents for both graduates and undergraduates and multiplying by the estimated total per person cost of attendance for each school type. In doing so, we utilize information from the US Department of Education, National Center for Education Statistics, Projections of Education Statistics to 2022 (NCES 2014, February 2014), The Integrated Postsecondary Education Data System (IPEDS), College Board -Trends in Student Aid 2016. © 2016 The College Board, www.collegeboard.org, National Student Clearinghouse - Term Enrollment Estimates and Company Analysis. Other sources for these data points also exist publicly and may vary from our computed estimates. NCES, IPEDS, and College Board restate their data annually, which may cause previously reported results to vary. We have also restated figures in our Company Analysis to standardize all costs of attendance to dollars not adjusted for inflation. This has a minimal impact on historically-stated numbers.

Higher Education Value Proposition

Key Statistics

- The unemployment rate for individuals 25 to 34 years old with four-year college degrees was 2.5%, compared to 6.2% for high school graduates (3)
- 64% of students graduate with student loans in AY 2014-2015 (4)
- 67% of student loan borrowers have debt balances less than $25,000 and 4% have balances above $100,000 (average borrowings of $26,700) (4)

Analytical Approach to Credit

**Initial Screen**
- $1,000 minimum loan
- Minimum FICO of 640
- No existing SLM 30+ day past dues
- No student loans 90+ day past dues
- No recent bankruptcy
- 2+ trades for cosigners and 4+ trades for non-cosigner

**Custom Scorecard**
- Multi-scenario approach that predicts percentage of borrowers likely to reach 90+ days past due
- Built in coordination with Experian Decision Analytics
- Applies 15 – 18 application and credit bureau attributes

**Manual Review**
- ~8% of applications
- Pass risk scores, but require further review due to credit concerns
  - Thorough review of bankruptcies, collection accounts, etc.
  - Higher levels of existing student debt
  - High credit utilization

**Key Points**
- Asset expertise and rigorous underwriting driven by large volume of historical data
- ~1.3mm annual applications
- ~40% approval rate

Sallie Mae Bank

- Market share leader in private student loan industry
- High quality assets and conservatively funded balance sheet
- Predictable balance sheet growth
- Strong capital position and funding capabilities
- A financial services company with high growth trajectory and excellent return on equity
ABS Supplement
Sallie Mae’s Smart Option Loan Product Overview

- The Smart Option loan product was introduced by Sallie Mae in 2009
- The Smart Option loan program consists of:
  - Smart Option Interest Only loans - require full interest payments during in-school, grace, and deferment periods
  - Smart Option Fixed Pay loans - require $25 fixed payments during in-school, grace, and deferment periods
  - Smart Option Deferred loans – do not require payments during in-school and grace periods
- Variable rate loans indexed to LIBOR, or fixed rate
- Smart Option payment option may not be changed after selected at origination
- Underwritten using proprietary credit score model
- Marketed primarily through the school channel and also directly to consumers, with all loans certified by and disbursed directly to schools

</tbody>
</table>
  - Made to students and parents primarily through college financial aid offices to fund 2-year, 4-year and graduate school college tuition, room and board
  - Also available on a limited basis to students and parents to fund non-degree granting secondary education, including community college, part time, technical and trade school programs
  - Both Title IV and non-Title IV schools

(1) Private education loans are typically non-dischargeable in bankruptcy, unless a borrower can prove that repayment of the loan would impose an "undue hardship".

</thead>
<tbody>
<tr>
<td>Delinquencies</td>
<td>All loans serviced by an affiliate of legacy SLM; loan owned by Sallie Mae Bank sold to legacy SLM after becoming 90+ days past due.</td>
<td>Sallie Mae Bank collects delinquent loans thru charge-off, placing emphasis on returning loans to current status during early delinquency.</td>
</tr>
<tr>
<td>Charge-offs</td>
<td>Loans serviced by legacy SLM charge off at 212+ days past due.</td>
<td>Loans serviced by Sallie Mae Bank charge off at 120+ days past due.</td>
</tr>
<tr>
<td>Recoveries</td>
<td>Post-charge off collections managed by legacy SLM; recoveries realized over 10+ years.</td>
<td>Charged-off loans either collected internally or sold to third parties. Recoveries recognized immediately if charged-off loans sold to third parties.</td>
</tr>
<tr>
<td>Forbearance</td>
<td>Granted for 3 mo. intervals with a 12 month maximum, with fee.</td>
<td>Granted for 3 mo. intervals with a 12 month maximum, no fee.</td>
</tr>
</tbody>
</table>

### Sallie Mae Bank Forbearance Policy -

- First choice is always to collect a payment from the borrower or co-signer
- If payment is not possible, forbearance temporarily provides borrowers limited time to improve their ability to repay during temporary economic hardship
- The vast majority of loans do not use forbearance; those that do, remain in forbearance for less than 12 months
Sallie Mae Bank Collections

Each customer is approached individually, and the account manager is educated and empowered to identify optimal resolution

- Co-borrowers are contacted and collected with similar efforts as the primary borrower

Sallie Mae Bank employs a front-loaded, stage based collections approach:

- **Early Stage Loan Collections** (1 – 29 days delinquent as of the first of the month)
  - Calling activity begins as early as 1 cycle day behind (5 days past their due date in most instances)
  - Dialer based calling and automated messaging are leveraged for early delinquency
  - E-mail and letter campaigns complement calling efforts

- **Mid-Stage Loan Collections** (30 – 59 days delinquent as of the first of the month)
  - Continue early stage activities
  - Account is assigned to a collector’s queue based on the delinquency and the type of loan. Collection campaign includes telephone attempts and manual skip tracing

- **Late Stage Loan Collections** (60+ days delinquent as of the first of the month)
  - Continue both early and mid-stage activities
  - Tenured route management collectors and customized letter campaigns

Cash collection is the primary focus, but a variety of tools are also available to collectors to aid in resolving delinquency:

- Auto pay – Monthly payment made automatically, prior delinquency cleared with forbearance
- Three Pay – After three scheduled monthly payments are made, prior delinquency cleared with forbearance
- Rate Reduction – Reduce rate for monthly payment relief, enrolled after three qualifying payments
- Rate Reduction with Term Extension – Reduced rate and extended term
- Additional programs are available when all other methods are not adequate

Bankruptcy Collections Policy – Collection activity stops if both parties on the loan file bankruptcy (borrower and cosigner) or on a non-cosigned loan; otherwise, collections can continue on the non-filing party

---

<sup>(1)</sup> Derivative Accounting: "Core Earnings" exclude periodic unrealized gains and losses caused by the mark-to-market valuations on derivatives that do not qualify for hedge accounting treatment under GAAP, as well as the periodic unrealized gains and losses that are a result of ineffectiveness recognized related to effective hedges under GAAP. Under GAAP, for our derivatives held to maturity, the cumulative net unrealized gain or loss over the life of the contract will equal $0.

<sup>(2)</sup> "Core Earnings" tax rate is based on the effective tax rate at the Bank where the derivative instruments are held.
Important Information Regarding Historical Loan Performance Data

On April 30, 2014 (the “Spin-Off Date”), the former SLM Corporation legally separated (the “Spin-Off”) into two distinct publicly traded entities: an education loan management, servicing and asset recovery business called Navient Corporation (“Navient”), and a consumer banking business called SLM Corporation. SLM Corporation’s primary operating subsidiary is Sallie Mae Bank. We sometimes refer to SLM Corporation, together with its subsidiaries and its affiliates, during the period prior to the Spin-Off as “legacy SLM.”

In connection with the Spin-Off, all private education loans owned by legacy SLM, other than those owned by its Sallie Mae Bank subsidiary as of the date of the Spin-Off, and all private education loan asset-backed securities (“ABS”) trusts previously sponsored and administered by legacy SLM were transferred to Navient. As of the Spin-Off Date, Navient and its sponsored ABS trusts owned $30.8 billion of legacy SLM’s private education loan portfolio originated both prior to and since 2009. As of the Spin-Off Date, Sallie Mae Bank owned $7.2 billion of private education loans, the vast majority of which were unencumbered Smart Option Student Loans originated since 2009.

Legacy SLM’s Private Education Loan and ABS Programs Prior to the Spin-Off

In 1989, legacy SLM began making private education loans to graduate students. In 1996, legacy SLM expanded its private education loan offerings to undergraduate students. Between 2002 and 2007, legacy SLM issued $18.6 billion of private education loan-backed ABS in 12 separate transactions.

In 2008, in response to the financial downturn, legacy SLM revised its private education loan underwriting criteria, tightened its forbearance and collections policies, ended direct-to-consumer disbursements, and ceased lending to students attending certain for-profit schools. Legacy SLM issued no private education loan ABS in 2008.

In 2009, legacy SLM introduced its Smart Option Student Loan product and began underwriting private education loans with a proprietary custom credit score. The custom credit score included income-based factors, which led to a significant increase in the percentage of loans requiring a co-signer, typically a parent. The initial loans originated under the Smart Option Student Loan program (the “Interest Only SOSLs”) were variable rate loans and required interest payments by borrowers while in school, which reduced the amounts payable over the loans’ lives and helped establish repayment habits among borrowers. In 2010, legacy SLM introduced a second option for its Smart Option Student Loan customers, which required a $25 fixed monthly payment while borrowers were in school (the “Fixed Pay SOSLs”). In 2011, legacy SLM introduced another option for its Smart Option Student Loan customers, which allowed borrowers to defer interest and principal payments until after a student graduates or separates from school (the “Deferred SOSLs”). In 2012, legacy SLM introduced a fixed rate loan option for its Interest Only, Fixed Pay and Deferred SOSLs. Borrowers must select which of these options they prefer at the time of loan origination and are not permitted to change those options once selected.

In 2011, legacy SLM included private education loans originated under the Smart Option Student Loan program in its ABS pools for the first time. Between 2011 and 2014, the mix of Smart Option Student Loans included in legacy SLM’s private education loan ABS steadily increased as a percentage of the collateral pools, from 10% initially to 64% in later transactions.

Sallie Mae Bank’s Private Education Loan and ABS Programs Post-Spin-Off

Originations. Following the Spin-Off, Sallie Mae Bank continued to originate loans under the Smart Option Student Loan program. As of December 31, 2016, it owned $14.1 billion of private education loans, the vast majority of which were Smart Option Student Loans originated since 2009, and over 85% of which were originated between 2013 and 2016. Navient ceased originating private education loans following the Spin-Off.

Servicing. Immediately prior to the Spin-Off, Sallie Mae Bank assumed responsibility for collections of delinquent loans on the vast majority of its Smart Option Student Loan portfolio. Following the Spin-Off Date, Navient continued to service all private education loans owned by the two companies on its servicing platform until October 2014, when servicing for the vast majority of Sallie Mae Bank’s private education loan portfolio was transitioned to Sallie Mae Bank. Sallie Mae Bank now services and is responsible for collecting the vast majority of the Smart Option Student Loans it owns.

Additional Information. Prior to the Spin-Off, all Smart Option Student Loans were originated and initially held by Sallie Mae Bank, as a subsidiary of legacy SLM. Sallie Mae Bank typically then sold certain of the performing Smart Option Student Loans to an affiliate of legacy SLM for securitization. Additionally, on a monthly basis Sallie Mae Bank sold all loans that were over 90 days past due, in forbearance, restructured or involved in a bankruptcy to an affiliate of legacy SLM. As a result of this second practice, prior to the occurrence of the Spin-Off, historical performance data for Sallie Mae Bank’s Smart Option Student Loan portfolio reflected minimal later stage delinquencies, forbearance or charge-offs.

Legacy SLM collected Smart Option Student Loans pursuant to policies that required loans be charged off after 212 days of delinquency. In April 2014, Sallie Mae Bank began collecting the vast majority of its Smart Option Student Loans pursuant to policies that required loans be charged off after 120 days of delinquency, in accordance with bank regulatory guidance. As a result of the various policies described above, it was not until recently that (a) a meaningful amount of Smart Option Student Loan charge-offs occurred in Sallie Mae Bank’s portfolio, and (b) performance data on Sallie Mae Bank’s owned Smart Option Student Loan portfolio became useful as a basis for evaluating historical trends for Smart Option Student Loans. For the reasons described above, much of Sallie Mae Bank’s historical performance data does not reflect current collections and charge off practices and may not be indicative of the future performance of the Bank’s Smart Option Student Loans.
Important Information Regarding Historical Loan Performance Data (cont.)

Types of Smart Option Loan Portfolio Data

The portfolio data we used in this report comes from three separate sources of information:

(1) Combined Smart Option Student Loan Portfolio Data for Legacy SLM, Navient and Sallie Mae Bank. Information in this category is presented on a combined basis for loans originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank when it was part of legacy SLM or by Sallie Mae Bank post-Spin-Off, and regardless of whether the loan is currently held by an ABS trust, or held or serviced by Navient or Sallie Mae Bank. Data in this category is used in the tables below under the following headings:

- "Cumulative Defaults by P&I Repayment Vintage and Years Since First P&I Repayment Period” – Only for 2010-2014 P&I Repayment Vintages
- "Annualized Gross Defaults (as a Percentage of Loans in P&I Repayment)"

This combined Smart Option Student Loan portfolio data provides insight into gross defaults of the covered vintages of Smart Option Student Loans since 2010, regardless of ownership or servicing standard. Data available for earlier periods includes a limited number of Smart Option Student Loan product types, a limited amount of loans in principal and interest repayment status, and limited periods of loan performance history.

Loans contained in the combined Smart Option Student Loan portfolio category were serviced by legacy SLM prior to the Spin-Off, and by either Navient or Sallie Mae Bank after the Spin-Off. As noted above, loans serviced by legacy SLM and Navient were serviced pursuant to different policies than those loans serviced by Sallie Mae Bank after the Spin-Off. Specifically, legacy SLM charged off loans after 212 days of delinquency, and Navient has continued this policy. Sallie Mae Bank currently charges off loans after 120 days of delinquency. All loans included in the combined Smart Option Student Loan portfolio that were serviced by legacy SLM prior to the Spin-Off were serviced pursuant to a 212-day charge off policy. Following the Spin-Off, a portion of the loans included in the combined Smart Option Student Loan portfolio data have been serviced by Navient pursuant to a 212-day charge off policy, and a portion have been serviced by Sallie Mae Bank pursuant to a 120-day charge off policy. As a result, future performance of loans serviced by Sallie Mae Bank may differ from the historical performance of loans reflected in this combined Smart Option Student Loan portfolio data.

(2) Smart Option Student Loan Portfolio Data for Sallie Mae Bank Serviced Loans. Information in this category is presented for loans originated under the Smart Option Student Loan program, whether originated by Sallie Mae Bank when it was part of legacy SLM or by Sallie Mae Bank post-Spin-Off, and regardless of whether the loan is currently held by an ABS trust. All loans in this category are serviced by Sallie Mae Bank. Data in this category is used in the tables below under the following headings:

- "Cumulative Defaults by P&I Repayment Vintage and Years Since First P&I Repayment Period” – Only for 2015 and 2016 P&I Repayment Vintages

The Sallie Mae Bank Serviced portfolio data provides insight into gross defaults of the Smart Option Student Loans covered and serviced by Sallie Mae Bank since 2015, regardless of ownership. We believe historical loan performance data since 2015 is more representative of the expected performance of Smart Option Student Loans to be included in new Sallie Mae Bank trusts than data available for earlier periods.

Loans contained in the Smart Option Student Loan Portfolio Data for Sallie Mae Bank Serviced Loans category were serviced pursuant to different policies than those loans serviced by Sallie Mae Bank after the Spin-Off, and regardless of whether the loan is currently held by an ABS trust, or held or serviced by Navient. Sallie Mae Bank currently charges off loans after 120 days of delinquency.

(3) Sallie Mae Bank-Only Smart Option Student Loan Data from and after the Spin-Off Date. Information in this category is presented from and after the Spin-Off Date for Smart Option Student Loans serviced by Sallie Mae Bank from and after the Spin-Off. Data in this category is used in the tables below under the following headings:

- “31-60 Day Delinquencies (as a Percentage of Loans in P&I Repayment);”
- “61-90 Day Delinquencies (as a Percentage of Loans in P&I Repayment);”
- “91-plus Day Delinquencies (as a Percentage of Loans in P&I Repayment);” and
- “Annualized Gross Defaults (as a Percentage of Loans in P&I Repayment)"

This Smart Option Student Loan portfolio data provides insight into historical delinquencies and defaults specifically of the Smart Option Student Loans covered, regardless of the loans’ ownership at the time, or whether the loans serve as collateral for an ABS trust. We believe this data is currently the most relevant data available for assessing historical Smart Option Student Loan performance.

Loans serviced by Sallie Mae Bank and contained in this Smart Option Student Loan portfolio were serviced pursuant to Sallie Mae Bank servicing policies since the Spin-Off. Sallie Mae Bank charges off loans after 120 days of delinquency in accordance with bank regulatory guidance. Future performance of loans serviced by Sallie Mae Bank may differ from the historical performance of loans reflected in this Smart Option Student Loan portfolio data.

Any data or other information presented in the charts is for comparative purposes only, and is not to be deemed a part of any offering of securities.

A significant portion of the Smart Option Student Loan performance data described above is provided to Sallie Mae Bank by Navient under a data sharing agreement executed in connection with the Spin-Off. This data sharing agreement expires in 2019. Under the data sharing agreement, Navient makes no representations or warranties to Sallie Mae Bank concerning the accuracy and completeness of information that it provided. Sallie Mae Bank has not independently verified, and is not able to verify, the accuracy or completeness of the data provided under the agreement.
Smart Option Loan Program Cohort Default Curves

Terms and calculations used in the cohort default curves are defined below:

- **First P&I Repayment Period** – The month during which a borrower is first required to make a full principal and interest payment on a loan.

- **P&I Repayment Vintage** – The calendar year of a loan’s First P&I Repayment Period.

- **Disbursed Principal Entering P&I Repayment** – The total amount of disbursed loan principal in a P&I Repayment Vintage, excluding any interest capitalization.

- **Reported Default Data** -
  - **For loans that default prior to their First P&I Repayment Period**: Loans defaulting prior to their First P&I Repayment Period are included in the P&I Repayment Vintage corresponding to the calendar year in which the default occurs, and are aggregated and reported in Year 0 of that P&I Repayment Vintage in the relevant charts and tables. For example: (a) if a loan’s First P&I Repayment Period was scheduled for 2015, but the loan defaulted in 2014, the default amount is reflected in Year 0 of the 2014 P&I Repayment Vintage; and (b) if a loan’s First P&I Repayment Period occurred in 2015, but the loan defaulted in 2015 before that First P&I Repayment Period, the default amount is reflected in Year 0 of the 2015 P&I Repayment Vintage.
  
  - **For loans that default after their First P&I Repayment Period**: Loans enter a particular annual P&I Repayment Vintage at different times during the P&I Repayment Vintage year. Default data is not reported for loans in a particular annual P&I Repayment Vintage until the First P&I Repayment Period has occurred for all loans in that annual P&I Repayment Vintage. Once reporting starts, data reflects defaults that occurred in a particular period through the number of months since December 31 of that annual P&I Repayment Vintage year. For example, in the relevant charts and tables included in this presentation as of June 30, 2017: (i) default data reported for loans in the 2016 P&I Repayment Vintage represents defaults occurring during the first 6 months after a loan’s First P&I Repayment Period regardless of the month in 2016 during which the first full principal and interest payment for that loan became due; and (ii) default data for loans in the 2015 P&I Repayment Vintage represents defaults occurring during the first 18 months after a loan’s First P&I Repayment Period regardless of the month in 2015 during which the first full principal and interest payment for that loan became due.

- **Periodic Defaults** – For any loan in a particular P&I Repayment Vintage, the defaulted principal and interest is reflected in the year corresponding to the number of years since the First P&I Repayment Period for that loan.

- **Cumulative Defaults** – At any time for a particular P&I Repayment Vintage, the cumulative sum of Periodic Defaults for that vintage.
  
  - Defaulted principal includes any interest capitalization that occurred prior to default
  
  - Defaulted principal is not reduced by any amounts recovered after the loan defaulted
  
  - Because the numerator includes capitalized interest while the denominator (i.e., Disbursed Principal Entering P&I Repayment) does not, default rates are higher than they would be if the numerator and denominator both included capitalized interest

Note: Historical trends suggested by the cohort default triangles may not be indicative of future performance. Legacy SLM and Navient serviced loans were serviced pursuant to a 212 day charge off policy. Sallie Mae Bank serviced loans were serviced pursuant to a 120 day charge off policy.
