Footnotes:

(1) Shares of common stock were repurchased under Rule 10b5-1 trading plans authorized under the Company's 2024 Share Repurchase Program. As of September 30, 2025, we had \$138 million of capacity remaining under the 2024 Share Repurchase Program.

(2) We calculate the percentage of loans in hardship and other forbearances as the ratio of (a) Private Education Loans in hardship and other forbearances (excluding loans in an extended grace period and delinquent loans in disaster forbearance) numerator to (b) Private Education Loans in repayment and forbearance denominator. If the customer is in financial hardship, we work with the customer and/or cosigner and identify any available alternative arrangements designed to reduce monthly payment obligations, which may include a short-term hardship forbearance. Loans in hardship and other forbearances (excluding loans in an extended grace period and delinquent loans in disaster forbearance) were approximately \$166 million and \$159 million at September 30, 2025 and 2024, respectively.

(3) We calculate and report our Return on Assets ("ROA") as the ratio of (a) GAAP net income (loss) numerator (annualized) to (b) the GAAP total average assets denominator.

(4) We calculate and report our Return on Common Equity ("ROCE") as the ratio of (a) GAAP net income (loss) attributable to common stock numerator (annualized) to (b) the net denominator, which consists of GAAP total average equity less total average preferred stock.
